

Trojan 17

Powerful, Heavy Duty Scrubbing Machine

Technical Data

Product Code	VR-T17
Voltage	240V
Motor Power Rating	1500 W
Speed	180-200 rpm
Cleaning Width	450 mm
Weight	38 kg
Noise Level (dBA)	57

The Trojan 17 can be equipped with the optional additional 30 kg of weight to enable it to deliver over 65 kg of downforce for the toughest scrubbing or stripping tasks.

The tough chemical resistant skirt provides protection for the machine against the strongest alkaline and acidic chemicals.

The same electronics package as featured on the MultiSpeed is applied to the Trojan 17 110V. This gives a soft start to the machine, where power is slowly applied and removes the 'kick' on start up for more operator comfort. The electronics also protect the electricity supply and the machine limiting the amount of current the machine can take from the socket to prevent cut-outs during use.

The number of attachments available for the machine include a variety of brushes and tanks and weights to help you get the most out of the Trojan 17.

The Victor Trojan 17 provides powerful cleaning performance with exceptional ease of use.
