

HyperGlide

Scrubbing Machine with Contra-Rotating Brushes

Versatile Cleaning machine for almost any environment

The Victor HyperGlide is a highly versatile cleaning machine that scrubs hard floors and carpets and provides effective dirt and solution recovery leaving floors clean and dry within minutes.

Contra-rotating Brushes Provide Effective Scrubbing Action

The Contra-rotating brushes provide exceptional cleaning performance and solution pick-up leaving floors or carpets virtually dry. It is ideal for use on virtually any floor covering and is particularly effective on safety flooring, tiled floors and can even be used on carpets and entrance matting.

Choice of Specialist Brushes

The HyperGlide comes complete with a set of white brushes for universal use. These work well on both carpets and most hard floor situations. Also available are several other brush sets for more specialised applications including the green brush set, more abrasive for heavy duty scrubbing, black brushes for rougher and harder floors, natural fibre brushes for polishing and brown brushes for carpets.

Solution Tank Included

The 5-litre tank is included with the machine. It can be simply removed from the machine for easy filling and solution preparation without having to move the complete machine to your water source.

Easy Operation

The HyperGlide is extremely light in operation and even with a full tank is comfortable to use with one hand. The responsive control allows even the most inexperienced operators to be cleaning effectively in minutes. The solution feed is simple to control using the finger operated gravity feed.

Easy to maintain and Repair

As is typical for a Victor machine the HyperGlide is easy to maintain and repair. Access to the working parts is simple through the removal of just a few screws.

The Victor HyperGlide provides versatile hard or soft floor cleaning complete with effective drying performance.

Motor Power	300 W	300 W
Brush Speed	680 / 1080 rpm	680 / 1080 rpm

The Victor HyperGlide is the most complete, simple to use contra-rotating brush cleaning machine on the market today.

The tank comes as standard, the pick-up is exceptional leaving floors ready to walk on in minutes, and the cleaning action is superb.

What really sets the Victor HyperGlide apart from other machines available in this class is its ease of use and portability. Simply push down the lever to release the handle, pull the handle back and the machine starts, return the handle to the upright position and the machine stops. Training requirements are kept to an absolute minimum. The HyperGlide can easily fit under most furniture as the handle can be lowered to the horizontal. The HyperGlide can be comfortably controlled by operators using one hand and weighing in at under 10kg can be simply moved around by operators without the use of a trolley.

Don't let the portability of the HyperGlide deceive you as to its cleaning power, the HyperGlide cleans incredibly well and is comparable to machinery many times its price and size.

For an effective, versatile cleaning machine that is a pleasure to use, choose the HyperGlide from Victor.
