

FSX

FAST CHARGE

V-9B

Battery Tub Vacuum

Cable Free for Daytime Cleaning

Free yourself from the constraints of using cables with the Victor V-9 Battery Vacuum. Powerful, robust yet is easy to manoeuvre the V-9 is the choice for daytime vacuuming.

Virtually Continuous Use Battery Vacuum

With two battery Halo packs the only time you need to stop cleaning is to simply change the battery packs. Thanks to Victor's Fast Charge Technology a battery pack will be fully charged from empty in the same time as the pack in use runs out of power. All you need to do is swap the battery packs and you are ready to go.

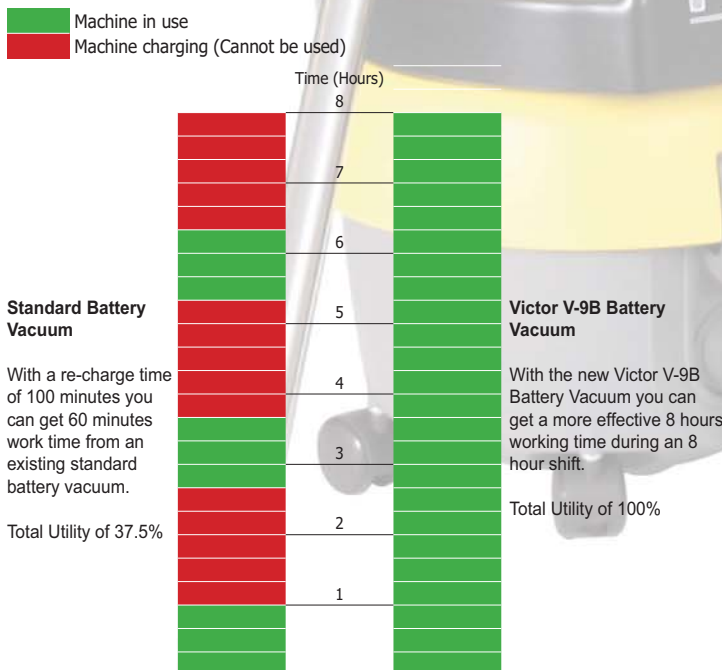

Quick Change Battery Halo

The unique design means that you simply need to place the battery unit on top of the machine and away you go. To remove the battery pack, just lift off.

HEPA Filtration

Just as the regular V-9, the battery version features HEPA filtration to help you make a positive contribution to the indoor air quality.

Productivity Comparison V-9B battery Vacuum Against Leading other Battery Vacuum

This chart in both cases assumes it takes no time to remove batteries from the machine and place them on charge and vice-versa.

Realise a productivity improvement of over 250% with the new Victor V-9 Battery Vacuum compared with existing battery vacuums.

The daytime cleaning vacuum, that can provide continuous use with just 2 battery packs.

Cost Effective Spare Parts

As much of the machine as possible has been based around the popular V-9, to make spare part stock holding, availability and cost as effective as possible.

9-Litre Capacity

The machine has a large 9-litre capacity and uses regular V-9 bags to safely dispose of collected debris.

Easy to Use

Drawing from the ease of movement of the V-9, the V-9 Battery also features 5 castors for exceptional mobility and stability in use.

For a demonstration of how the Victor V-9 Battery Vacuum can help your Daytime Cleaning, please call us now.

Technical Data

| | |
|-----------------------------|-------------|
| Product Code | V-9B |
| Voltage (V) | 24 |
| Motor Power Rating (Watts) | 400 |
| Airflow (l/s) | 34 |
| Waterlift (mm) | 1100 |
| Weight with Batteries (kg) | 13 |
| Noise Level (dBA) | <50 |
| Dimensions (L x W x H) (mm) | 400x345x435 |
| Capacity (Litres) | 9 |
| Charge Time (Min) | 20 approx |
| Runtime (Min) | 20 approx |

The Victor range of Fast Charge Cleaning Machines can help you get more productivity and better cleaning results from your daytime cleaning activity.

The range includes the V-9 Battery Vacuum, FSX Fast Charge Battery Burnisher and several Scrubber Driers, all designed to allow your to maximise daytime cleaning productivity.

Vacuuming can be virtually continuous with the V-9 Battery vac, and with productivity of over 75% of a working day with the FSX Battery Burnisher and our Fast Charge scrubber driers, Victor have finally managed to get close to the utility of mains machines but with the cable free safety of using battery machinery.
