# A BRIEF HISTORY

Mighty cleaning machines since 1946

**V**ictor was originally created by Dowding & Plummer Ltd – a domestic electrical appliances and vehicle electric repairs company established in 1946. At the end of World War II, Dowding & Plummer began to manufacture electrical components for domestic appliances, including floor polishers. By the 1950s, the company was producing its own vacuum cleaners.

During the 1960s, the UK's commercial contract cleaning market began to grow, and Dowding & Plummer made the move from domestic appliances to commercial and industrial products. It started producing rotary floor machines, and a durable, reliable floor cleaner – branded Victor – soon became popular, not only in the UK, but across the world.

The Victor name was chosen by Les Davies, former Sales Director and joint Managing Director, from his time flying Lancaster Bombers during World War II. Squadron planes were all marked with the code letters VN, followed by the individual aircraft recognition letter, meaning the phonetic call sign to the control tower on take-off and landing was Victor Nan, plus the letter of the aircraft. Les survived a full tour unscathed, and considered the plane he was usually allocated – VN-F: Victor Nan-Fox – lucky.

The Victor machines produced today are still made in Britain and retain the same reliability and durability as the floor cleaners produced in the 1960s – and continuous improvement ensures the brand still leads in terms of technological development, innovation and customer satisfaction.

# WHY CHOOSE VICTOR?

Need some help? Call us today: +44 (0)121 706 5771

## Made In Britain

We are proud that our mighty commercial cleaning products are manufactured in the UK. Where possible, we use locally sourced parts and suppliers which keeps our lead times low, whilst supporting the local economy.

## Short Lead Times Available

We hold large quantities of stock, offering our customer short lead times. Need your commercial cleaning equipment delivering direct to site? No problem, call our team today, we will be delighted to assist you.

## First Class Customer Care

Our team of friendly, knowledgeable staff are on hand to help you with your commercial cleaning needs. Not sure what you need? No problem, our team have decades of experience solving commercial cleaning problems.

## High Quality Products

We believe in long lasting, reliable products. This is why we only produce and source the highest quality components, assembled by our highly trained production team in an environment that has quality assured measures in place every step of the way.

## Simple Engineering

Over complicated machinery is difficult to maintain & service. Our simple but highly effective engineering makes our commercial cleaning machines easy to keep in perfect working order, with minimal downtime.

Need some help? Call us today: +44 (0)121 706 5771

## WHAT WE DO

# OUR VISION

To be recognised for market leading floorcare **innovation**, producing **robust** cleaning machines that are the **easiest** to use and the most **reliable** by matching **progressive** designs with **quality** and exceptional **performance**.

## WHAT WE STRIVE FOR

# OUR VALUES

### Honesty & Integrity

We respect and value stakeholders, treating them the way we'd like to be treated ourselves

### Commitment

We don't give up or stop until we meet the highest standards

### Innovation

We design and innovate to make enduring products that always reflect our heritage

### Delighting Customers

Always at the heart of everything we do.

## INDUSTRIES WE PROUDLY SERVE

### Commercial Cleaners

Professional cleaners need equipment that is cost effective, reliable and offer sustained performance. Victor offer a range of products and machines geared to meet these needs.

### Education

Meeting the cleaning demands of a busy school can be difficult. Victor have been popular with the education sector for many decades, with products such as the Contractor or V9 Vacuum firm favourites.

### Healthcare

Hospitals and care homes demand the highest level of sanitisation. Victor offer a wide range of high quality products suitable that guarantee the best cleaning performance.

### Manufacturing

Clean, maintained factories can offer better levels of efficiency and operations. Victor offer a range of products that help support the needs of the manufacturing industry.

### Automotive

Car showrooms require an immaculate finish to help the cars look their best. Victor offer a range of Rotary machines & Scrubber dryers which make floorcare easy to maintain.

### Local Authorities

Victor has been a firm favourite with local authorities for decades. Cost effective, high quality machines maximise budget, whilst keeping maintenance of machines to a minimum.

### Retail & Supermarkets

Having a clean store is a priority for all retail stores. The Victor range caters for all square footage, ensuring you have the right machine on standby in your store.

### Hotels & Hospitality

Making guests feel at home is number 1 for any successful hotel or hospitality venue. Victor offer a wide range of products to help ensure the highest levels of cleanliness.

### Food Services

Customer care and quality are core values at the heart of the food industry. These values align perfectly with Victor's. Victor have a range of cleaning solutions, ideal for both front & back of house.

### Transport

Continuous cleaning maintenance is important to ensure the safety of travellers. Victor offer a range of products to support the transport industry, including the Nimrod- a cordless commercial stick vacuum

### Construction

Built to last, our cleaning products are produced to the highest standard ensuring they are robust enough to meet the demands of the toughest jobs on site.

### Facilities Management

We work closely with the FM industry to develop new products that meet the ever changing needs of FM industry. Our bespoke JanCart trolley's modular design makes it ideal for an infinite number of cleaning challenges.

ROTARY MACHINES

## CONTRACTOR

VR-C

Page 20

The Contractor rotary machines offers unrivalled value and performance across a range of hard floor cleaning tasks including buffing, spray cleaning, scrubbing and bonnet mopping.

*Available in both mains & cordless*

## SPRITE

VR-S

Page 21

The Sprite Range is similar to our ever popular Contractor range, however features an active exhaust unit for a perfect dust free finish.

*Available as a mains machine*

## SPRITE 300

VR-S300

Page 22

The Sprite 300 is one of the most slimline machines on the market today, allowing it to be used in the tightest of areas. Featuring just a 300mm driveboard, making it ideal for washrooms and other confined areas

*Available as a mains machine*

## MULTISPEED

VR-MSI

Page 23

The Multispeed is ideal for operatives who work on a range of floor types or perform a range of tasks. The Mutispeed offers both high and lower speed capabilities, making it ideal for polishing, scrubbing and everything in between

*Available in both mains & cordless*

## TROJAN

VR-T17

Page 24

The Trojan is a slightly slower RPM machine which is ideal for scrubbing tasks on both hard floors and carpets. The Trojan can have weights added (up to 30kg) which offers incredible downforce

*Available as a mains machine*

BURNISHERS

## LYNX

VR-L

Page 25

The Lynx is a super fast burnishing machine which operates at 1080 RPM. This offers excellent productivity in spray cleaning or burnishing when a superior floor finish is required.

*Available in both mains & cordless*

UPRIGHT SCRUBBER DRYERS

## HYPERGLIDE

V-H9816

Page 41

The Hyperglide is a versatile and lightweight, upright scrubber dryer. Suitable for both hard floors and carpets, it's contra-rotating brushes leave floors touch dry in seconds.

*Available in both mains & cordless*

OSCILLATING MACHINES

## OCELOT

VR-O400B

Page 34

The Ocelot is a super lightweight oscillating machine which is suitable for both deep cleaning and maintenance cleaning of most hard floor types.

*Available as a cordless machine*

## OCELOT PLUS

V-OC400B-PLUS

Page 35

The Ocelot Plus features the same deep penetrating motion as the Ocelot, but with the added feature of wet pick up and a recovery tank.

*Available as a cordless machine*

SCRUBBER DRYERS

## SD12

VR-S300

Page 42

The SD12 is a super compact scrubber dryer with a 12 litre solution tank. The SD12 features a fold over handle, making it incredibly portable and easy to store. The SD12 is the ideal compact scrubber dryer for cleaning up to 1600 m<sup>2</sup> on a single charge.

## SD20

V-SD20

Page 43

The SD20 is a super compact scrubber dryer featuring a 20 litre solution tank. The SD20 is the ideal compact scrubber dryer for cleaning up to 2,400 m<sup>2</sup> on a single charge.

## SD40

V-SD40

Page 44

The SD40 is a super compact scrubber dryer featuring a 40 litre solution tank. The SD40 is the ideal compact scrubber dryer for cleaning surfaces up to 6,000m<sup>2</sup> on a single charge.

## SD50

V-SD50

Page 45

The SD50 is a super compact scrubber dryer featuring a 50 litre solution tank. The SD50 is the ideal compact scrubber dryer for cleaning surfaces up to 8,400m<sup>2</sup> on a single charge.

RIDE-ON SCRUBBER DRYERS

## SDR80

V-SDR80

Page 46

The SDR-80 is a compact ride-on scrubber dryer which features the performance and manoeuvrability of a walk behind scrubber dryer, but with the added productivity of a ride-on scrubber dryer.

**SIMPLE DOSING SYSTEM**

Controlled dosing system without the need for equipment installation.

**SUPER CONCENTRATED**

Each 1ltr bottle can provide up to 100 litres of cleaning solution.

**ECONOMICAL**

Prevent overdose, by dispensing the precise measured dose using a safer and simpler 'invert and pour' method.

**SAFE**

Bottle is designed so that product cannot be spilled onto the user's hands as the chemical is dosed.

**LOW FOAMING**

Specifically formulated for use in commercial cleaning machines.

**ENVIRONMENTALLY FRIENDLY**

Biodegradable, petroleum free, non-caustic formulations

**001 POOLSIDE & WASHROOM**

Code: V-PW001

- Descaling power
- Kills bacteria, mould & mildew
- Biodegradable detergents and descalers Rapidly removes daily accumulations of body fat and limescale
- Effective in hard and soft waters

**1 Ltr**

**002 CARPET & FABRIC CARE**

Code: V-CFC002

- Economical to use – high activity
- Gently removes dirt and grime
- Effective in hard and soft waters
- Petroleum solvent free
- Non Caustic
- Pleasant perfume
- Biodegradable
- Controlled foam system
- Includes water softener

**1 Ltr**

**003 UNIVERSAL FLOOR CLEANER**

Code: V-UFC003

- Easily removes dirt and grime
- Petroleum solvent free
- Non-caustic
- Biodegradable
- Controlled foam system
- Includes water softener

**1 Ltr**

**WHAT MAKES**

# VICTOR ROTARY MACHINES

**UNIQUE?**

## What is CentreFlex® Technology?

Victor have been perfecting their unique CentreFlex drive board technology for over 30 years. The CentreFlex drive board self-levels whilst cleaning, which ensures that both flat and uneven surfaces are given the perfect finish. The CentreFlex's shock-absorbing qualities mean less vibration is felt by the user, reducing fatigue and making it more ergonomic to operate.

**Made in the UK**  
Victor have been proudly making commercial cleaning equipment in Birmingham for over 75 years.

**Built to Last**  
We believe in producing long lasting equipment that will stand the test of time in the most demanding environments.

**3 Year Warranty**  
All Victor rotary machines are backed up by a 3 year warranty. (Subject to registration)

**No Cogs**  
Our rotary machines, use belt driven technology which means there are no complex cog mechanisms to go wrong.

**Ergonomic Design**  
All Victor rotary machines have fully adjustable ergonomic handles, for optimum user comfort.

**CentreFlex® Drive Board**  
CentreFlex® drive boards self levels whilst cleaning. This ensures a perfectly clean finish on both flat or uneven surfaces.

**Simple Engineering**  
Simple engineering means simple maintenance for the end user.

**Easy Transport**  
Sturdy wheels ensure easy transport of Victor machines, when not in use.

**Bespoke**  
Our in-house Research & Development department are on hand to help solve problems and create bespoke solutions on request.

BrushDrive blends the familiarity and easy installation of a traditional pad with the robust cleaning power of a brush. There's no need to change existing floor machines, no special attachment required and no operator learning curve. BrushDrive has been engineered to work with most existing machines, attaching quickly and simply to the existing driveboard, just like a regular pad. BrushDrive agitates chemicals, pushing them into grout lines and highs-lows where pads can't reach.

**Green BrushDrive (120-grit)**  
For heavy scrubbing and removal of dried on residue, saturated grout lines and layers of built up dirt.

Code	Size
SBI58301	400mm
SBI58301	450mm

**Black BrushDrive (80-grit)**  
For stripping floors down to the base level.

Code	Size
SBI58321	400mm
SBI58321	450mm

- ✓ Outlasts traditional pads up to 50 to 1
- ✓ Economical
- ✓ Easy to install and use
- ✓ Won't gum up when cleaning or stripping
- ✓ Flexible and lightweight

Check out our **COMMERCIAL CLEANING GUIDES** On page 78

Simple guides on how to get the most out of your Victor Cleaning Products.

### Key features

**EASY TO FIT**

Our Patent-pending, quick-change universal adaptor design attaches to any driveboard\* just as you would fit a pad. (\*Driveboard not included)

**DESIGNED TO FIT**

Fits most traditional 175-350 RPM machines: single-disc, auto scrubber, ride on, orbital.

**CLEANS UNEVEN FLOORS**

Pad bristles reach down into grout and texture for superior cleaning.

# ROTARY MACHINE CONSUMABLES

Floor pads, brushes, drive boards and tanks

## STANDARD ROTARY MACHINE PADS

**White Floor Pads**  
For polishing clean, dry floors.  
Available in 12" 15" 17" 20"

**Red Floor Pads**  
For light cleaning tasks.  
Available in 12" 15" 17" 20"

**Blue Floor Pads**  
For scrubbing delicate floors.  
Available in 12" 15" 17" 20"

**Green Floor Pads**  
For wet scrubbing and cleaning.  
Available in 12" 15" 17" 20"

**Black Floor Pads**  
For stripping floors.  
Available in 12" 15" 17" 20"

## SPECIALIST ROTARY MACHINE PADS

**Melamine Pad**  
Ideal for deep cleaning tasks  
Available in 12" 15" 17"

**Bonnet Mop**  
Available for carpets or hard floors  
Available in 12" 15" 17"

**Skimming Pad**  
For carpet skimming.  
Available in 12" 15" 17"

**Sanding Pad**  
For floor sanding.  
Available in 15" 17"

## SPECIALIST ROTARY MACHINE PADS

**Poly Scrub Brush**  
For Scrubbing hard floors  
Available in 300mm, 400mm, 450mm

**Poly Shampoo Brush**  
For Shampooing Carpets  
Available in 300mm, 400mm, 450mm

**BrushDrive Brush**  
Fits directly to a Victor drive board  
Available in 400mm & 450mm  
For more info, see P17

**CentreFlex® Drive Board**  
Available in 300mm, 400mm, 450mm

**Burnisher Drive Board**  
Available in 15", 17" and 20"

## ROTARY MACHINE ACCESSORIES

**7l Solution Tank**  
Easy to fit, holds 7l

**15l Solution Tank**  
Easy to fit, holds 15l

**Active Vacuum Exhauster**  
For active dust removal

**Quick Release Skirt**  
Universal size for 15" or 17"

**Anti-Splash Skirt**  
Available in 12" 15" 17"

## CONTRACTOR RANGE

### Single Disk Rotary

The Contractor rotary machines offers unrivalled value and performance across a range of hard floor cleaning tasks including buffing, spray cleaning, scrubbing and bonnet mopping.

Available in high speed (300rpm) or standard speed (240rpm) and either 400mm or 450mm drive boards, the Contractor provides the flexibility to effectively carry out most hard floor cleaning tasks.

This versatile machine can be fitted with an optional cleaning solution tank for scrubbing or bonnet mopping.

The lower profile extended base allows users to clean effectively beneath overhanging shelving or tables.

- ✓ **Made in the UK**
- ✓ **3 Years Warranty**
- ✓ **Drive board included**
- ✓ **Maintenance packages available on request**

# SPRITE 300

## Slimline Single Disk Rotary

The Sprite 300 is one of the most slimline machines on the market today, allowing it to be used in the tightest of areas.

The Sprite 300 operates at our standard speed (240 RPM) to give the operator the opportunity to carry out a number of cleaning tasks on both hard floors and carpets.

The fold over handle allows the machine to be stored in the smallest of cleaning cupboards and the brush hook on the rear of the handle provides convenient storage for either a brush or drive board.

As you would expect from such a versatile machine, a full range of accessories is available for the Sprite 300. These include tanks and a variety of brushes, polypropylene for scrubbing, for polishing and shampoo brushes for carpets.

- ✓ Made in the UK
- ✓ 3 Years Warranty
- ✓ Drive board included
- ✓ Maintenance packages available on request

Code	Description
VR-S300S	Standard speed slimline 300mm (15")

### Suitable for

- Cleaning compact washrooms
- Hard floor scrubbing
- Hard floor spray cleaning
- Hard floor bonnet mopping
- Carpet skimming
- Carpet bonnet mopping

### Key features

#### Tried & Tested Drive System

Tensioned belt and pulley mechanism - no complex cogs/gear wheels

#### Slimline Design

Ideal for cleaning around tight or confined spaces such as washrooms

#### Easy to Store

The fold over handle makes the Sprite 300 incredibly easy to store.

#### Quiet & Smooth Motor

Twin capacitor motor ensures smooth start every time.

# MULTISPEED

## Variable Speed Single Disk Rotary

The Victor Multispeed Rotary Floor Scrubber and Polisher Machine is the ideal choice for venues where hard flooring requires both deep cleaning and polishing, such as schools, colleges, nightclubs, hospitals etc.

Ideal for users who require a rotary floor tool for multiple different uses, but don't want the cost of maintaining of multiple machines.

The Victor Multispeed can easily change between 200 RPM and 400 RPM at the flick of a switch.

As with all Victor machines, Multispeed machines are delivered fully assembled and ready for use. A drive board is included so you can just attach the appropriate pad and start cleaning.

- ✓ Made in the UK
- ✓ 3 Years Warranty
- ✓ Drive board included
- ✓ Maintenance packages available on request

Code	Description
VR-MSI450	450mm (17")

### Suitable for

- Hard floor stripping or scrubbing
- Hard floor spray cleaning
- Hard floor polishing
- Carpet shampooing and scrubbing
- Carpet skimming
- Bonnet mopping

### Key features

#### Dual Speed

Switch between 200 and 400rpm at the flick of a switch

#### Easy to Transport

Sturdy wheels enable effortless transportation.

#### Easy Cleaning Fluid Application

The solution tank upgrade is quick and easy to install and is controlled by a trigger on the handle.

#### Simple to Maintain & Service

Tensioned belt and pulley mechanism - no complex cogs/gear wheels

### AVAILABLE IN:

# TROJAN

## Heavy Weight, Lower RPM

The Trojan operates at 180 RPM, ideal for scrubbing and scarifying. This slightly slower RPM is the optimal for a range of tasks from carpet cleaning to marble preparation when used in conjunction with optional added weights.

The Trojan is an exceptionally powerful rotary machine. Capable of being loaded with up to an extra 30kg of weight, the Trojan is ideal when a tough scrubbing or scarifying task needs completing.

Designed for the heaviest of tasks, the Trojan features a corrosion proof undercover. This allows the strongest cleaning chemicals to be used without causing damage to the machine.

The Trojan comes ready to use with a 15L tank, driveboard and anti-splash skirt. A wide range of pads, shampoo brushes, scarifying brushes and additional weights are available on request.

- ✓ Made in the UK
- ✓ 3 Years Warranty
- ✓ Drive board included
- ✓ Maintenance packages available on request

Code	Description
VR-T17	Low Speed 450mm (17")

### Suitable for

- Hard floor stripping
- Hard floor scrubbing
- Hard floor spray cleaning
- Hard floor sanding
- Hard floor bonnet mopping
- Carpet skimming
- Carpet bonnet mopping
- Marble Preparation
- Scarifying

### Key features

#### Slower RPM

At 180 RPM the slower speed of the Trojan makes it ideal for carpet cleaning, floor sanding, deep cleaning or marble preparation.

#### Easy Transportation

Sturdy wheels enable effortless transportation. When in use, these wheels float off the floor effortlessly.

#### Extra Weights Available

A weight box and up to 3 additional weights of 10kg each can be added to the Trojan. The increased downforce is ideal for heavy duty tasks.

#### 15L Solution Tank

Operated by the trigger on the handle, the 15L solution tank is suitable for a range of cleaning tasks.

# LYNX RANGE

## Burnishing

The Lynx operates at 1080 RPM to give excellent productivity in spray cleaning or burnishing and a superior finish on the floor.

The Lynx features a passive vacuum which helps collect surface dust into an on-board dust bag. For areas more prone to dust build up, an active exhauster unit can be added which creates a powerful vacuum action.

Easy to use, fold-over handle allows the Lynx to be stored in the smallest of places.

Available in 3 sizes 15" (400 mm), 17" (450 mm) and 20" (500 mm)

The Lynx can be fitted with an exhauster for areas where an active dust collection unit is necessary. However where sound is an issue the Lynx has the ability to be converted to a silent passive dust collection system.

- ✓ Made in the UK
- ✓ 3 Years Warranty
- ✓ Drive board included
- ✓ Maintenance packages available on request

Code	Description
VR-L15	400mm (15")
VR-L17	450mm (17")
VR-L20	500mm (20")

### Suitable for

- Hard floor spray cleaning
- Hard floor burnishing

### Key features

#### Superior Results

1080 RPM operating speed gives excellent productivity and finish.

#### Long-Life Use

Toughened plastic pad gripper prevents pad from working use and ensures longevity.

#### Easy Storage

The Lynx folds down to allow easy compact storage.

#### Active or Passive Vacuum

Vacuum exhauster can be fitted securely to handle

### AVAILABLE IN:

**THE NEW CORDLESS CLEANING RANGE**

# V CLEANING CORDLESS

**WHY CHOOSE THE VICTOR CORDLESS RANGE?**

The new CleaningVCordless Battery Technology used in Victor Cordless machines delivers all the convenience of cordless without compromising on professional performance.

**HIGH QUALITY CELLS**

Victor battery cells are aligned in a way to ensure constant power is delivered over impressive run times, maximising range and extending battery life.

**ONE SIZE DOESN'T FIT ALL**

Each machine has optimised battery power, rather than a 'one size fits all' approach. Using a common battery across a range of machines, (e.g. same battery in a scrubber dryer machine as a vacuum) will either be overpowered or under-powered, potentially constraining machine capabilities.

**Long life**

Victor CleaningVCordless Batteries are designed to give a long-life, delivering up to 2500 charge cycles (compared to traditional more commonly used gel batteries, which only last on average 300 cycles.\*  
\*based on market knowledge of scrubber dryers

**SIMPLE CHARGING**

Swap out batteries can be easily removed with just one hand movement or conveniently charged on the machine itself. This allows for multiple batteries, enabling much longer runtimes.

**SWAP OUT & LOCKABLE**

Option of either Key-lockable on non-lockable (on 'bottle' batteries only): Lockable to help prevent theft and misuse.

**Unique BMS**

Victor's exemplary design and engineering experience is demonstrated with the unique battery management system (BMS) (patent pending)

## WHY GO CORDLESS?

Quicker, safer and more convenient, switching to CleaningVCordless raises productivity levels, saving time and money.

With no cables to hold you back, you can get into those hard to reach areas in small spaces and you can cover a greater distance without the limitation of a cord.

**Increased productivity**

Cordless increases manoeuvrability, making it really easy to move freely and safely around your facility.

**Mid cycle Charging**

Increased operator efficiency and improved machine utilisation - machines can be used mid-charge cycle if necessary meaning a machine is always ready when needed.

**Extra quiet**

So quiet you can keep cleaning all day long without disturbing anyone.

**No trailing cables**

Cleaning with cordless removes a massive health and safety hazard - cables. Clean in public areas without risk of trip hazards.

**Daytime cleaning**

Possible to replace night shifts as cordless machines enable daytime cleaning due to removal of trip hazards

**No PAT testing required**

Eliminate costly PAT testing requirements for cabled machines

**Lower energy costs**

Lower annual energy costs through utilisation of battery power technology.

# BATTERY POWERED ROTARY MACHINES

## LYNX CORDLESS Burnishing

The Cordless Lynx is a revolution in hard floor spray cleaning and burnishing.

With fast charge times and long runtime the Lynx Cordless is ideal for daytime cleaning where trailing cables could cause a trip hazard.

The Lynx Cordless operates at 800 RPM to give excellent productivity in spray cleaning or burnishing and a superior finish on the floor.

The Lynx features a lockable, swap-out battery, making it ideal for operatives who require long runtimes, offering the ability to charge multiple batteries.

The Lynx Cordless also features a passive vacuum which helps collect surface dust into an on-board dust bag.

Easy to use, fold-over handle allows the Lynx to be stored in the smallest of places.

- Made in the UK
- 3 Years Warranty
- Drive board, battery & charger included
- Maintenance packages available on request

Code	Description
VR-BL15	Lynx Battery Burnisher 400mm (15")

- Suitable for**
- ✓ Hard floor Burnishing
  - ✓ Hard floor spray cleaning

### Key features

- Superior Results**  
800 RPM operating speed gives excellent productivity and finish.
- Long-Life Use**  
Toughened plastic pad gripper prevents pad from working use and ensures longevity.
- Lockable, Swap Out Battery**  
Swap out battery enables operatives to use multiple batteries for longer runtimes.
- Passive Vacuum**  
Passive vacuum collects dust particles to help create a perfect finish.

## CONTRACTOR CORDLESS

### Single Disk Rotary

The Contractor Cordless rotary machine offers unrivalled value and performance across a range of hard floor cleaning tasks including buffing, spray cleaning, scrubbing and bonnet mopping.

This high speed (240rpm) machine comes supplied with a 400mm drive board, providing the flexibility to effectively carry out most hard floor cleaning tasks.

With fast charge times and long runtime the Contractor Cordless is ideal for daytime cleaning where trailing cables could cause a trip hazard.

The Contractor Cordless features a lockable, swap-out battery, making it ideal for operatives who require long runtimes, offering the ability to charge multiple batteries.

This versatile machine can be fitted with an optional cleaning solution tank for scrubbing or bonnet mopping.

The lower profile extended base allows users to clean effectively beneath overhanging shelving, tables, hospital beds and other low level furniture.

- Made in the UK
- 3 Years Warranty
- Drive board, battery & charger included

## THE OCELOT RANGE

# POWERFUL OSCILLATING MACHINES

## Why Oscillation?

Oscillating floorcare machines are incredibly effective at maintaining floors. Compared to traditional rotary scrubbers that rotate circular pads between 175 and 300 revolutions per minute, oscillating floor machines oscillate the typically rectangular-shaped pad driver offer 3000 rounds of 7mm cleaning action per minute. The quicker revolutions allow operatives to make light work of cleaning floors.

The increased agitation through speed reduces the amount of time it takes to scrub the floor.

**Simple to Use**  
The Ocelot range has no complicated menus or buttons. Simply switch on and start cleaning

**Edge to Edge Cleaning**  
Unlike circular rotary machines, The Ocelot range's rectangular drive board allows edge-to-edge cleaning.

**Long Battery Life**  
The Ocelot range features batteries with long run times and fast charge times

**Swap Out Battery**  
The easy swap out battery ensures the Ocelot range can be in use for as long as necessary.

**Deep Cleaning Action**  
3000 rounds of 7mm cleaning action per minute creates superior results on a range of hard floors.

**Reduced Chemical Use**  
Even if there is a build up of dirt only a neutral cleaning solution or plain water is required.

# DO YOUR SAFETY FLOORS LOOK DULL & UNCLEAN?

Although excellent at preventing slips in commercial environments and incredibly hard wearing when maintained correctly, safety flooring can be notoriously difficult to clean. Safety flooring's non-slip properties are created by the peaks and troughs in its sandpaper like surface. Dirt gets captured in the recesses making it incredibly difficult and labour intensive to clean.

If dirt is left to accumulate, not only is the floor unhygienic, but it loses its non-slip qualities which is not only counterproductive but also hazardous.

## Why is safety flooring difficult to clean?

Safety flooring features a sandpaper like "peak and trough" pitted surface to reduce slips.

Dirt gathers and gets caught in the 'troughs' of the safety flooring's pitted surface.

Traditional mopping only skims the peaks, leaving dirt behind. Deck scrubbers only move the dirt around.

Over time dirt builds up in the recesses of the safety flooring which makes it look dull or patchy.

Cleaning safety flooring is synonymous with time-consuming, labour-intensive and often unsatisfactory results. The increased agitation which oscillating machines provide reduces the amount of time it takes to scrub the floor.

## Available cleaning pads for the Ocelot range

**MAINTAIN**  
Microfibre Pads (3pk)

CODE: VE40665  
SIZE: 600mm x 400mm

For general, maintenance and intermediate floor cleaning.

Maintenance cleaning of all types of flooring in low-traffic/low soiling environments.

Highly absorbent

Durable and long lasting, can be washed at 40degree over 500 times

Suitable for:

All hard floors types

**CONTOUR**  
Texture & Grout Pads (3pk)

CODE: VE40765  
SIZE: 600mm x 400mm

For deep cleaning of grout lines, uneven and textured.

The fibres work like a brush to agitate dirt which has been engrained to textured surfaces.

The extra thick backing helps ensure the fibres penetrate the nooks and crevices of floors giving maximum results

Suitable for:

Textured floors  
Grouted tile floors  
Concrete floors

Unsuitable for:  
Wood

**ERASE**  
Melamine Pads (3pk)

Code: VE40529  
SIZE: 600mm x 400mm

For deep cleaning and mark removal on many types of floors.

Melamine is ideal for deep cleaning and restoration of micro-porous floor surfaces.

Can be used wet or dry and with or without a cleaning solution, to produce clean, residue-free surfaces, and restore shine to protected floors.

Suitable for:

Linoleum  
Anti-slip Safety Floors  
PVC

Unsuitable for:  
Varnished floors

**DURA**  
FibrePlus Pads (3pk)

CODE: VE40670  
SIZE: 600mm x 400mm

For deep cleaning and mark removal on textured floors.

The fine fibres of the FibrePlus pad can reach into the smallest cavities in floor coverings for an effective clean.

Dirt is removed from the surface, but does not stick to the fibre, and can therefore be vacuumed up

Suitable for:

Textured floors  
Linoleum  
Anti-slip Safety Floors  
PVC  
Rubber studded floors  
Ceramic Tiles  
Vinyl

# OCELOT 400

## Oscillating Floor Cleaning Machine

The Ocelot 400 is a high speed oscillating machine which effortlessly achieves outstanding results with reduced chemical usage.

The Ocelot can be used for 2 hours on a single charge, and can be fully recharged in under 4 hours.

The Ocelot features a compact design whilst maintaining a 400 mm cleaning pad. This makes the Ocelot 400 lightweight and manoeuvrable enough to clean in tight spaces.

Unrivalled mechanical cleaning operation through crosswise oscillation creating 3000 rounds of 7mm cleaning action per minute.

- Superior cleaning results
- Reduced chemical use
- Robust & built to last
- Long runtime 1.5hr+
- No trailing cables
- Made in the U.K
- Fast charge

Code	Description
VR-O400B	Ocelot 400

### Suitable for

- ✓ Deep cleaning safety flooring
- ✓ Hard floor restoration
- ✓ Hard floor deep cleaning
- ✓ Periodic & maintenance cleaning

### Key Features

#### Reduces Slip Hazards

Less water use on the floor ensures floors are perfectly dry instantly, whilst restoring the non-slip properties of safety flooring.

#### Reduced Chemical Costs

The efficacy of the mechanical action, combined with the use of abrasive pads, minimizes the use of detergents

#### Reduced Training Time

No complicated displays or excessive settings, the Ocelot is very simple to use.

#### Versatile Cleaning

The Ocelot creates outstanding results on a range of floor types

# OCELOT PLUS 400

## Oscillating Floor Cleaning Machine with Wet Pick-Up

The Ocelot Plus features all the capabilities of the Ocelot 400, but with the addition of vacuumation for wet pick-up.

This high speed oscillating machine which effortlessly achieves outstanding results with reduced chemical usage.

The Ocelot plus can be used for over just under 2 hours or up to 3 hours with the vacuumation switched off. The battery is fully recharged from flat in under 4 hours.

The Ocelot features a compact design whilst maintaining a 400 mm cleaning pad. This makes the Ocelot 400 lightweight and manoeuvrable enough to clean in tight spaces.

The Ocelot plus features a swap out battery, making it ideal for operatives who require multiple batteries for longer runtimes.

- Robust & built to last
- Long runtime
- No trailing cables
- Made in the U.K

Code	Description
V-OC400B-PLUS	Ocelot 400 Plus

### Suitable for

- ✓ Deep cleaning safety flooring
- ✓ Hard floor restoration
- ✓ Hard floor deep cleaning
- ✓ Periodic & maintenance cleaning

### Key Features

#### Powerful Oscillation

Unrivalled mechanical cleaning operation through crosswise oscillation creating 3000 rounds of 7mm cleaning action per minute.

#### Wet Pick Up

The Ocelot Plus is ideal for a range of deep cleaning tasks allowing it to pick up any water it puts down, leaving the floor perfectly dry.

#### Reduced Training Time

No complicated displays or excessive settings, the Ocelot is very simple to use.

#### Swap Out battery

Swap out battery enables operatives to use multiple batteries for longer runtimes.

# What makes Victor Scrubber Dryers Unique?

## Fast Charge & Long Run Times

Up to twice as long as industry standards. Batteries fully charged in half the time of industry standard.

## Magnetic Clutch

The magnetic brush and driveboard fitting is easily removable, making changing brushes, pads and general maintenance much simpler.

## Higher RPM

Victor Scrubber driers have a RPM of 340 - almost twice the industry standard, so can clean floors in half the time.

## Twin Brush Design

Unique twin brush design powered by a single motor increases cleaning power and decreases the noise.

## Wide Opening Tank

Super wide opening tank allows easy access and cleaning for the user.

## High Brush Head Pressure

Ideal for heavy duty and deep cleaning, Victor scrubber driers have a downforce of up to 30kg.

**3 Year Warranty**

## 3 Year Warranty

All Victor Scrubber Dryers are backed up by a 3 year warranty.

\*SDR80 & Hyperglide 2 years as standard

## Front Mounted Squeegee

The squeegee is mounted in front of the wheels. This ensures the wheels are never wet, resulting in a perfect finish.

## Super Compact

Victor Scrubber Dryers are the lightest, shortest and narrowest when compared to alternatives with the same capacity.

## Simple to use controls

The Victor scrubber dryer range has been developed with the end user in mind. Simple controls make it easy for the user to get the machine to perform correctly and reduces training time

Just two simple buttons control all the functions.

**MODE SELECTION**  
Mode selection button  
Eco / Max Power / Off and %  
detergent selection

**WATER ADJUSTMENT**  
Water adjustment button  
from 0.3 to 2 l/min. The same  
button also allows draining  
the solution tank.

**POWER CONSUMPTION**  
Displays the total power  
consumption.

**RUNTIME COUNTER**  
Residual runtime and hour  
counter.

**Easy Grip Button System**

# HYPERGLIDE 350

## Ultra-Compact

The Hyperglide 350 is an ultra compact, upright scrubber dryer for all types of hard floors and carpets. It's contra-rotating brushes leave floors clean and dry within minutes, making this ideal for hotels, restaurants, bars, schools, offices, shops and healthcare facilities.

Effective on most floor types, particularly safety flooring, tiled floors, carpets and entrance matting.

Supplied with medium grade (grey) brushes, designed for universal use, however more specialised brushes are available.

The Hyperglide 350 is extremely light in operation and even with a full tank is comfortable to use with one hand. Similar to an upright vacuum cleaner, the Hyperglide is very simple to use which means minimal training requirements.

✓ **Contra rotating brush design**

Cleans and dries at the same time, leaving floors touch dry instantly.

✓ **Effective on multiple floor types**

Effective on most floor types, particularly safety flooring, tiled floors, carpets and entrance matting

✓ **Simple, but built to last**

Easy access to routine maintenance parts

✓ **Light & easy to Use**

Simple controls mean less training is required.

Code	Description
V-H9816	Hyperglide 350 - Mains powered

### Key features

**Light & Portable**

Extremely light in action and even with a full tank is comfortable to use with one hand

**High Performance**

2 Contra-rotating brushes ensure optimum cleaning power.

**Low Profile for Added Reach**

Low profile and full handle movement allows access under most furniture

**Extra Clean**

1.8l Recovery tank prevents dirty water leaking out

### Consumables

Code	Name
SBI7269	Hyperglide Firm brush black
SBI7270	Hyperglide Medium brush grey

**Hyperglide Medium Contra Brush Grey**  
Suitable for most surfaces, including porcelain tiles, ceramic, linoleum, PVC flooring, aluminium flooring, laminate parquet flooring

**Hyperglide Firm Contra Brush Black**  
Suitable for surfaces requiring more abrasive force. Ideal for periodic and deep cleaning.

### Technical Specifications

# HYPERGLIDE 350 CORDLESS

## Ultra-Compact

The Hyperglide 350 Cordless is an ultra compact floor scrubber, for all types of hard floors and carpets. It's contra-rotating brushes leave floors clean and dry within minutes, making this ideal for hotels, restaurants, bars, schools, offices, shops and healthcare facilities.

The Hyperglide 350 Cordless offers a runtime of 1 hour, and can be recharged from flat in 90 minutes. The swap out battery allows operatives to charge multiple batteries for longer runtimes.

Effective on most floor types, particularly safety flooring, tiled floors, carpets and entrance matting

Supplied with medium grade (grey) brushes, designed for universal use, however more specialised brushes are available.

The Hyperglide 350 is extremely light in operation and even with a full tank is comfortable to use with one hand. Similar to an upright vacuum cleaner, the Hyperglide is very simple to use which means minimal training requirements.

✓ **Contra rotating brush design**

Cleans and dries at the same time, leaving floors touch dry instantly.

✓ **Effective on multiple floor types**

Effective on most floor types, particularly safety flooring, tiled floors, carpets and entrance matting

✓ **Simple, but built to last**

Easy access to routine maintenance parts

✓ **Light & easy to Use**

Simple controls mean less training is required.

Code	Description
V-H9819	Hyperglide 350 - Battery powered

### Key features

**Light & Portable**

Extremely light in action and even with a full tank is comfortable to use with one hand

**Fast Charge & Long Runtimes**

The Hyperglide 350 Cordless offers a runtime of 1 hours, and can be recharged from flat in 90 minutes.

**Battery Light Indicator**

Operatives can clearly see how much charge time they have left with the battery light indicator.

**Swap Out Battery**

The swap out battery allows operatives to charge multiple batteries for longer runtimes.

### Consumables

## SD12 SCRUBBER DRYER

### Compact 12l Walk Behind

The SD12 Super compact scrubber dryer benefits from a slimline body and a fold over handle which make it incredibly easy to store and manoeuvre around tight spaces such as retail environments or washrooms.

The SD12 is the ideal compact scrubber dryer for cleaning surfaces from 250 - 500 m<sup>2</sup> and can clean up to 1600 m<sup>2</sup> on a single charge.

The front mounted brush head increases visibility in operation allowing the operator to see their working area, in addition to being able to get the brushes closer to corners and edges.

The patented two toothed brushes has simplified the transmission to a single motor, thus increasing productivity and reducing costs.

The SD12 has been designed to be simple to maintain. Routine maintenance tasks such as squeegee replacement, cleaning the clean-water filter and replacing brushes is fast and easy. The wide opening of the recovery tank makes with easy to access and clean.

#### ✓ High performance cleaning

High rotation double brush cleans better than single brush machines.

#### ✓ Super Compact design

With the same tank capacity, Victor scrubber dryers are some of the shortest, narrowest and lightest options available.

#### ✓ Simple, but built to last

Easy access to routine maintenance parts

#### ✓ Easy to Use

Simple controls mean less training is required.

#### ✓ Quick Charge & Long Runtime

#### ✓ Maintenance packages available on request

Code	Description
V-SD12	12l Compact Walk Behind Scrubber Dryer

#### Key features

#### Front-mounted Double Brush

The SD12's patented 2 brush design is powered by a single motor which offers superior cleaning power.

#### Extra Quiet

The SD12 has been design to be a quiet as possible and creates just 66.7 decibels of sound.

#### Super Slimline

At just 34kg the SD12 is very lightweight without compromising downforce. Although slimline, the SD12 still maintains a 400mm cleaning width

#### Easy Storage

The fold over handle on the SD12 makes it incredibly easy to store in a cleaning cupboard, or fit in the boot of a car.

## SD20 SCRUBBER DRYER

### Compact 20l Walk Behind

The SD20 compact scrubber dryer benefits from a slimline body which is easy to store and manoeuvre around tight spaces such as retail environments or washrooms.

The SD20 is the ideal compact scrubber dryer for cleaning surfaces from 250 - 1000 m<sup>2</sup> and can clean up to 2,400 m<sup>2</sup> on a single charge. (2,400 m<sup>2</sup> on Eco Mode, 1,700 m<sup>2</sup> on Max)

The front mounted brush head increases visibility in operation allowing the operator to see their working area, in addition to being able to get the brushes closer to corners and edges.

The patented two toothed brushes has simplified the transmission to a single motor, thus increasing productivity and reducing costs.

The SD20 has been designed to be simple to maintain. Routine maintenance tasks such as squeegee replacement, cleaning the clean-water filter and replacing brushes is fast and easy. The wide opening of the recovery tank makes with easy to access and clean.

#### ✓ High performance cleaning

Code	Description
V-SD40	40l Walk Behind Scrubber Dryer

## SD50 SCRUBBER DRYER

### Compact 50l Walk Behind

The SD50 compact scrubber dryer benefits from a slimline body which is easy to store and manoeuvre around tight spaces such as retail environments or washrooms.

The SD50 is the ideal compact scrubber dryer for cleaning surfaces from 1000 - 2000m<sup>2</sup> and can clean up to 8,400m<sup>2</sup> on a single charge. (8,400m<sup>2</sup> on Eco Mode, 6,300m<sup>2</sup> on max)

The front mounted brush head increases visibility in operation allowing the operator to see their working area, in addition to being able to get the brushes closer to corners and edges.

The patented toothed brush design has simplified the transmission to a single motor, thus increasing productivity and reducing costs.

The SD50 has been designed to be simple to maintain. Routine maintenance tasks such as squeegee replacement, cleaning the clean-water filter and replacing brushes is fast and easy. The wide opening of the recovery tank makes with easy to access and clean.

#### ✓ High performance cleaning

# SDR-80 RIDE ON

## 80l Compact Ride On Scrubber Dryer

The SDR-80 features the performance and manoeuvrability of a walk behind scrubber dryer, but with the added productivity of a ride-on scrubber dryer.

The front mounted brush head increases visibility in operation allowing the operator to see their working area, in addition to being able to get the brushes closer to corners and edges.

The patented two toothed brushes has simplified the transmission to a single motor, thus increasing productivity and reducing costs.

The SDR-80 has been designed to be simple to maintain. Routine maintenance tasks such as squeegee replacement, cleaning the clean-water filter and replacing brushes is fast and easy. The wide opening of the recovery tank makes with easy to access and clean.

The slimline design of the SDR-80 makes it very easy to manoeuvre, even if the operator is more accustomed to a walk behind machine.

- ✓ **High performance cleaning**  
High rotation double brush cleans better than single brush machines
- ✓ **Compact design**  
With the same tank capacity, Victor scrubber dryers are some of the shortest, narrowest and lightest options available.
- ✓ **Simple, but built to last**  
Easy access to routine maintenance parts
- ✓ **Easy to Use**  
Simple controls mean less training is required
- ✓ **Quick Charge & Long Runtime**
- ✓ **Maintenance packages available on request**

Code	Description
V-SDR-80	80l Ride On Scrubber Dryer

### Key features

**Front-mounted Double Brush**  
Patented 2 brush design are powered by a single motor, for superior cleaning power.

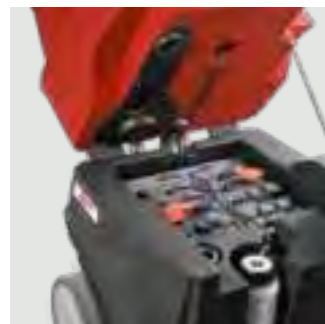

**Extra Quiet**  
The dual brush and suction turbine are powered by a single motor creating just 69 decibels in use.

**Heavy Duty Brush**  
Equipped with a heavy duty brush head (up to 41kg) with adjustable working pressure.

**Super Slimline**  
Designed to be as ultra slimline, allowing it to be lighter and more manoeuvrable.

**Quick Charge Batteries**  
The SDR-80 has a runtime of 4hrs and can be fully recharged in just 12hrs.

**Simple Maintenance**  
Routine maintenance and cleaning tasks such have been designed to be fast and simple.

**Squeegee in front of wheels**  
Drying the floor before it comes in contact with the wheels reduces the risk of skidding and impacts.

**Power steering**  
Advanced power steering ensures ultimate manoeuvrability and driving comfort for the operator.

### Technical Specifications

	V-SDR-80
Solution Tank (l)	80
Recovery Tank (l)	80

<b>TRANSMISSION</b>	
Motor differential power with electric brake (W)	300
Working Speed (km/h)	0-4
Transfer Speed (km/h)	0-6
Max. Slope exceedable (work / ramp)	7% - 16%
<b>WASHING HEAD LIFTING</b>	
Gear motor power (W)	30
<b>BATTERIES</b>	
Battery compartment size x2 (mm)	375 x 375 x 315
Standard Batteries x 2	Gel 12V 105/140Ah (C5/C20)
Recommended battery unit size (mm)	345 x 170 x 285
Recommended battery unit weight (kg)	42.7

#### Twin Toothed Brush Design

The use of double toothed brushes increases efficiency, whilst utilising just one motor. This increases the energy efficiency, increasing runtime.

#### Reduced Maintenance

All routine maintenance tasks such as cleaning and replacing the squeegee, cleaning the tank and replacing brushes are easy to access and effortless.

#### High Brush Head Pressure

The SDR-80 can be used for maintenance or deep cleaning. The SDR-80 comes equipped with an electric load adjustment which ranges from 0kg - 41kg

\* Cord/plug for different countries available on request with no extra-charge

# SCRUBBER DRYER CONSUMABLES & ACCESSORIES

## EASY DOSING SYSTEM

Save chemical and save time with the Victor SD dosing system

The Victor SD range can be equipped with a simple detergent regulation system whose percentage (fixed with four values 0.2%, 0.5%, 1% and 1.5%) is set from the scrubber dryer's control panel. This allows the precise calibration of the amount of chemical product according to the application. This 'mix at source' dosing system reduces the waste of chemical compared to manual dosing by releasing the exact amount of chemical with the relevant amount of water.

## EASY FIT HEPA 13 FILTER

The polluted air from the squeegee is conveyed through a HEPA H13 filter before being released into the environment. A small door allows access for cleaning or replacing the filter.

## BRUSHES

### SOFT

#### Blue Tooth PPL 0.7 mm Brush

Soft brush for hard floors

Available in 7", 8", 10" and 13"

Compatible with SD12, SD20, SD40, SD50 and SDR80

### HARD

#### Tynex Grit 320 Heavy Duty Pad

Heavy duty scrubbing pad brush for hard floors

Available in 7", 8", 10" and 13"

Compatible with SD12, SD20, SD40, SD50 and SDR80

### PADS

Red, Green and Black pads

Available in 7", 8", 10" and 13"

Compatible with SD12, SD20, SD40, SD50 and SDR80

# V-9 HEPA TUB VACUUM CLEANER

600W 9l Commercial Tub Vacuum

The Victor V-9 features a highly advanced HEPA filtration system without the need for expensive HEPA bags. This commercial tub vacuum is lightweight and easy to use whilst also being powerful and incredibly robust. Ideal for use on large carpets or hard floors.

The V-9 has been certified to have a 99.9984%\* HEPA filtration rate, which is 8x higher than HEPA13 healthcare standards. The V-9's unique 5 castor design offers better stability and mobility than its rivals, ensuring it won't topple over. The Victor V-9's powerful 600W motor delivers a full diameter intake, with no loss of suction, even when the bag is full.

The V9 HEPA filter cartridge captures and traps fine particles, such as pollen, dust mites and pathogens, including bacteria, reducing the risk of recirculation back into the environment.

\*HEPA delivers certified HEPA13 standards typically demanded in Healthcare environments of filtration down to 0.3 microns at 99.9984% efficiency (i.e. fewer than 300 particles per million).

**✓ Powerful & no loss of suction**

High quality 600W motor and fixed HEPA filter ensures motor won't get blocked by the bag even when full.

**✓ Compact, lightweight design**

Weighing in at 6kg, this 9l tub vacuum is super light in weight.

**✓ Simple, but built to last**

Designed to sustain years of demanding use.

**✓ Easy to Use**

Simple to use single switch and intuitive design.

**✓ Made in the UK**

Made in our Birmingham factory.

Code	Description
V-9	9l HEPA Dry Tub Vacuum Cleaner

**Key features**

**High Suction Powerhead**  
The powerful 600W Ametek motor delivers high suction and long life performance.

**Advanced HEPA Filtration**  
Our HEPA filter delivers 99.9984% efficiency - which is 8 times better than HEPA13 healthcare standards.

**Quick Wind Cable**  
Vacuum top is designed to store the cable. Simply remove the hose and spin the V-9 on its 5 castors to easily wrap the cable.

**Quick Change Cable**  
Our 'plug & play' cable ensures easy storage and simple replacement. Cable restrainer ensures cable won't pull out during use.

**Consumables**

Code	Name
C4900	Quick change cable
C1842	HEPA Filter Kit

Capacity (l)	9
Working Width (mm)	270
Motor Power (W)	600
Noise Level (dB)	60
Productivity (m <sup>2</sup> /hr)	250
Airflow (l/s)	58
Vacuuation (Mbar)	200
Accessory Diameter (mm)	32
Cable Length (m)	12.5
Weight (kg)	6
Dimensions (mm)	510x410x490

## THE DIFFERENCE IS IN THE DETAILS

**HANDLE**

Moulded to fit down tube for easy transportation.

**CABLE CLIP**

Cable clips neatly into the handle for easy storage.

**QUICK WRAP CABLE**

Simply remove the hose and spin the V-9 on its 5 castors to quickly wrap the cable for neat storage in the specifically moulded lid.

Cable restrainer on handle ensures the quick change cable won't unplug itself during use - even if pulled by the cable.

**HIGH QUALITY MOTOR**

High quality, powerful Ametek 600W Motor. Delivers high power suction, and lasting performance.

**UNIQUE RIGID FILTER**

The fixed HEPA filter prevents the motor from becoming blocked as the bag fills up. This ensures a high performance vacuum at all times - with no loss of suction.

**COST EFFECTIVE PAPER BAGS**

The Victor V9 filters 99.9984% of dust and air particles, so there is no need for expensive HEPA bags. Our fixed filter combined with double walled paper bags are cost effective and don't let dust and other particles escape.

**IMPACT RESISTANT TUB**

High capacity 9l tub made from high impact resistant, tough ABS plastic won't crack or shatter - even with continuous use.

**5 CASTOR DESIGN**

Our 5 castor design, offers much more stability than 4 wheel versions. This ensures the vacuum will stay upright, even when pulled around corners.

# V-9B HEPA TUB VACUUM CLEANER

## 400W Battery Powered Commercial Tub Vacuum

Free yourself from the constraints of using cables with the Victor V-9 Battery Vacuum. Powerful, robust, yet easy to manoeuvre, the V-9B is the choice for daytime vacuuming.

The HEPA filter cartridge captures and traps fine particles, such as pollen, dust mites and pathogens, including bacteria, reducing the risk of recirculation back into the environment - without the need for expensive HEPA bags.

The dual power mode ensures a long battery life and swap out battery. The V-9B offers 120 minutes runtime on low power or 60 Minutes on full suction.

The V-9B has been certified to have a 99.9984%\* HEPA filtration rate, which is 8x higher than HEPA13 healthcare standards.

Featuring a unique 5 castor design, the V-9B offers better stability and mobility than the industry standard, ensuring it won't topple over when in use.

### ✓ Powerful & no loss of suction

High quality 400W motor and fixed HEPA filter ensures motor won't get blocked by the bag even when full.

### ✓ Long runtimes & fast charge battery

Up to 120 minutes runtime and recharge from flat in under 3 hours.

### ✓ Simple, but built to last

Designed to sustain years of demanding use.

### ✓ Easy to use

Simple to use single switch and intuitive design.

### ✓ Made in the UK

Made in our Birmingham factory.

# UCS VACUUM CLEANER

## Commercial Upright Vacuum

Tough, high performance upright vacuum cleaner for professional applications, featuring individual brush and suction motors for superb cleaning performance and reliability.

With fast, dust-free bag change, a range of tools and wand hose stored conveniently on the machine and a cleaning width of 350mm the UCS cleans quickly and thoroughly with the minimum of effort.

The UCS has been designed to have a 99.9984%\* HEPA filtration rate, which is 8x higher than HEPA13 healthcare standards.

The UCS's HEPA filter cartridge captures and traps fine particles, such as pollen, dust mites and pathogens, including bacteria, reducing the risk of recirculation back into the environment.

\*HEPA delivers certified HEPA13 standards typically demanded in Healthcare environments of filtration down to 0.3 microns at 99.9984% efficiency (i.e. fewer than 300 particles per million).

✓ **Separate motors for brush and suction**  
Maximises machine lifetime and productivity.

✓ **Poly-V belt transmission**  
Ensures effective power transmission, maximising performance.

✓ **Brush bristles can be easily replaced**  
Reducing cost and need for an engineer.

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Made in the UK**  
Made in our Birmingham factory.

3 YEAR WARRANTY

TWIN MOTOR

99.9984% HEPA FILTRATION

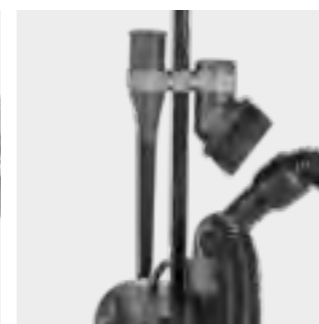

Code	Description
V-350	UCS Upright Vacuum Cleaner

### Key features

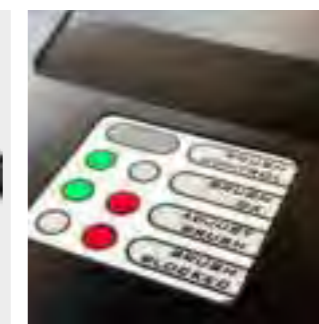

#### Super Low profiles

The Victor UCS has the ability to go completely flat, making it ideal for cleaning under beds and other low level furniture.

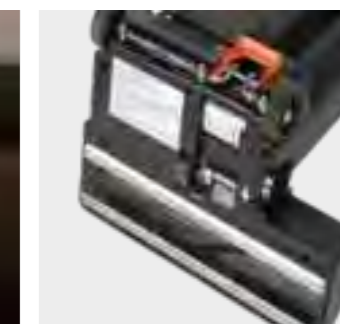

#### On-board Tool Storage

The UCS has easy access, on-board storage for cleaning tools.

#### Simple Control Panel

A clear and simple LED panel indicates any issues with the brush head.

#### Powerful Rotating Brush

4-position brush adjustment ensures best results depending on floor type.

# NIMROD VACUUM CLEANER

## Commercial Cordless Stick Vacuum

The Victor Nimrod Stick vacuum cleaner is a commercial cordless vacuum cleaner which can either be used as a handheld vacuum cleaner for hard to reach areas, or a cordless upright for hard floors and carpets.

The Nimrod is supplied with a wide range of accessories, making it incredibly versatile for a wide range of tasks. The Victor Nimrod commercial stick vacuum features a 380W brushless motor and for up to 35 minutes operating time.

The swap out 24V high performance Li-ion battery offers 24/7 cleaning capabilities when teamed with multiple batteries. The wall charger / accessory holder ensures all tools are kept neatly whilst charging. From flat, the Nimrod can fully charged in just 3 hours.

This highly effective, easy to use stick vacuum is ideal for cleaning public spaces, schools, workplaces, hospitality and retail.

✓ **Fast Charge**  
Fully charged from flat in just 3 hours

✓ **Compact, lightweight design**  
Weighing in at 2.3kg, this commercial stick vacuum is super light in weight.

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

# BATTERY BACK PACK VACUUM

## Commercial Vacuum Cleaner

The Victor Back Vacuum Cleaner is a compact, lightweight and easy to use battery powered vacuum cleaner.

The high comfort harness allows operatives to wear for prolonged periods without strain. Ideal for environments where trailing cables reduces productivity, for example cinemas or trains.

The lithium battery has a life cycle of approx 2,000 cycles. These Lithium batteries guarantee up to 65 minutes of working time and fast recharging times (about 1h). With no "memory effect": the batteries can be charged at any time, even partially, without any risk of damage.

The dual power mode is ideal for varying runtimes, and increasing power when required.

The Victor Back Vacuum Cleaner is supplied with both an extendible wand tool and floor tools, making it adaptable to any vacuuming task.

✓ **Fast Charge & long Runtimes**  
65 minutes of working time and fully recharged in approx 1h.

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

1 YEAR WARRANTY

7kg SUPER LIGHTWEIGHT

RUNTIME 65 MINUTES

Code	Description
V-H9870	4l Back Pack Vacuum Cleaner

### Key features

#### High Comfort Harness

Suitable for prolonged periods of use, the Victor BPV features a high quality harness with tool storage holster.

#### Lightweight & Ergonomic

At just 7kg the Victor BPV is super lightweight and won't cause strain to the operative.

#### Extendable Wand Tool

Extra long reach extendable wand allows the user to reach hard to reach areas.

#### Accessories Includes Floor Tool

The BPV can be used with a detail brush, crevice nozzle or floor tool.

## WD30

### 22L Wet & Dry Vacuum Cleaner

The WD30 is a high performance wet and dry vacuum cleaner with a 22 Litre capacity.

This powerful, high suction vacuum, combined with wide floor nozzle always ensures superior performance and outstanding results.

Ideal for use in normal wet cleaning and stripping applications.

✓ **Use as a wet or dry vacuum cleaner**  
Simply remove the dry vacuum filter and use as a wet vacuum

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

Code	Description
V-WD30	22L Wet & Dry Vacuum Cleaner

#### Benefits

- Robust stainless steel housing ensures long life
- Full accessory kit
- For wet and dry pick up
- Low noise
- Powerful suction for maximum efficiency
- Anti-static chain prevents static shocks
- Ametek high quality vacuum motor for maximum reliability

#### Key features

#### Multi Purpose

For wet vacuum of hard floors or dry vacuum of hard floors, carpets and upholstery.

#### Powerful suction and low noise

The 1250W motor ensures a high powered pickup whilst only emitting 60 decibels.

#### Commercial Design

Robust wheels ensure maximum stability and manoeuvrability, whilst the stainless steel body ensures long life.

#### Unique Float Design

Effective for pick-up when high foaming chemicals have been used, due to unique float design.

#### Consumables

## WD60

### 55L Wet & Dry Vacuum Cleaner

The WD60 is a high performance wet and dry vacuum cleaner with a 55 Litre capacity.

This powerful, dual motor, high suction vacuum, combined with wide floor nozzle always ensures superior performance and outstanding results.

Ideal for use in wet cleaning and stripping applications that require more power.

✓ **Use as a wet or dry vacuum cleaner**  
Simply remove the dry vacuum filter and use as a wet vacuum

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use double switch and intuitive design.

Code	Description
V-WD60	55L Wet & Dry Vacuum Cleaner

#### Benefits

- Commercial Stainless Steel housing
- Full accessory kit
- Wet and dry pick up
- Twin motors for unrivalled performance
- Anti-static chain prevents static shocks
- Quick & simple cleaning and maintenance
- Ametek high quality vacuum motor

#### Key features

#### Multi Purpose

For wet vacuum of hard floors or dry vacuum of hard floors, carpets and upholstery.

#### Powerful Twin Motors

The powerful twin motors can be used separately or simultaneously, allowing the operator to control suction.

#### Dump Hose

Dump hose for easy emptying once the tank is full.

#### Optional Fixed Nozzle Tool

The push handle and fixed nozzle allow users to pick up large volumes of water effectively.

# HOT WATER EXTRACTOR

## 70l Wet Vacuum & Extractor

The Victor Hot Water Extractor uses hot water and detergent with high pressure to clean carpets. The Unrivalled cleaning action combines the hot temperature of the water combined with the detergent and pressure penetrates deep into carpet fibres

This professional hot water extractor features wet vacuum, extractor with hot water and double stage motors. This machine provides efficient, high temperature cleaning, thanks to its 90°C thermostat.

The Victor Hot water Extractor is ideal for deeply embedded dirt and grime in carpet fibres. Dirt is broken down by hot water faster, making it easier to be picked up by the equipment's powerful vacuum.

**✓ 90°C thermostat**

Hot water is more effective at breaking down dirt.

**✓ Simple, but built to last**

Designed to sustain years of demanding use.

**✓ Easy to Use**

Simple to use design.

Code	Description
V-H9880	70l Hot Water Extractor

### Benefits

- Durable construction
- 90°C thermostat allows high cleaning temperatures
- Double stage motors

### Key features

**Extra Wide Suction Nozzle**

The extra wide suction nozzle makes it ideal for large areas.

**75l Capacity**

The huge 75l recovery tank and 25l solution tank means operatives can be more productive between filling or emptying.

**Simple to Use**

Simple, easy to use control panel. This makes it incredibly easy to use safely with minimal training.

**Robust Construction**

The Victor Hot water Extractor has been built with commercial environments in mind. The robust construction is ideal for demanding tasks.

# STEAM EXTRACTOR

## 22l Wet Vacuum & Extractor

The Victor Steam Extractor is a high quality, robust, commercial grade machine which creates steam up to 150 degrees.

Using steam for cleaning operations is a simple, inexpensive, hygienic and environmentally friendly system. The high temperature allows removal of a variety of dirt whilst sanitising surfaces.

Ideal for bacteria and fungi elimination from all types of hard surfaces, carpet and fabric.

The Victor Steam Extractor is quick and easy to use, to ensure the best cleaning performance.

**✓ Creates upto 150°C Steam**

The high performance boiler ensures the best quality steam

**✓ Simple, but built to last**

Designed to sustain years of demanding use.

**✓ Easy to Use**

Simple to use and intuitive design.

Code	Description
V-H9860	Steam Extractor

### Benefits

- High performance boiler
- Heavy duty construction
- Acts as a wet & dry vacuum
- Quiet in operation - only 60dB

### Key features

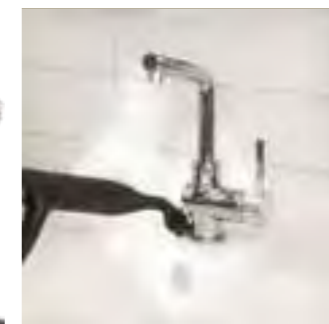

**150°C Steam**

The high quality boiler creates sanitising steam of upto 150 degrees.

**Robust Construction**

The Victor Steam Extractor has been designed to exceed the expectations of a demanding commercial environment.

**Versatile Accessories**

The Victor Steam Extractor is supplied with a range of accessories making it suitable for a wide range of tasks.

**On-board Storage**

The Victor Steam Extractor features on-board storage which can be used for transporting a range of cleaning supplies.

# CX7 SPRAY EXTRACTOR

Carpet and upholstery cleaner

The CX7 spray extraction cleaner has been designed for vacuuming, washing and drying all types of carpets and textiles.

Suitable for a range of cleaning activities including furniture, upholstery and spot cleaning of carpets.

Extensive cleaning range due to 10 metre cable + 2.5m hose.

Easy to use with a removable tank and fluid connectors enables quick filling of solution

Robust wheels ensure maximum balance of stability and manoeuvrability

Easily portable due to central carry handle and lightweight (only 10KG)

✓ **Powerful 1250W Motor**  
Ideal for high performance and consistent results

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

Code	Description
V-H2102	CX7 Spray extraction cleaner

## Benefits

Suitable for all textiles and carpets  
Robust steel housing ensures long life  
Extensive 10m cleaning range

## Key features

**Ideal for large Carpeted areas**  
Extensive 10m reach and ideal for spot cleaning on carpet.

**High Capacity**  
7l detergent and 11l recovery capacity, durable stainless-steel body

**Versatile**  
Can be used for washing and drying all types of carpets and textiles as well as a dry vacuum cleaner.

**Lightweight & Portable**  
Easily portable due to central carry handle and lightweight at 10KG

# SL8000

Vacuuated Steam Cleaner

The Victor SL8000 Steam Cleaner and HEPA Vacuum offers superb portable steam cleaning with vacuumation for complete dirt and water removal leaving surfaces clean, dry and sanitised.

Equipped with a HEPA filter, the SL8000 eliminates pollen, pet hair, dust mites and tobacco smoke.

The integrated vacuum provides an additional cleaning capability and surfaces can be left dry and dirt free. Steam helps remove dirt and grease from surfaces without the use of cleaning agents

Steam is released at 145°C degrees which provides a sanitising effect on the surface it cleans.

Features 3 suction power settings, allowing the operator to select noise and power level.

Ideal solution for cleaning of a wide variety of areas including washrooms, kitchens, carpets and upholstery

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

Code	Description
V-H9810	SL8000 Vacuumated Steam Cleaner

## Benefits

HEPA Vacuum & Steam Cleaner  
Helps reduce spread of viral infection  
Removes dirt and grease  
Allows user to select appropriate suction power from 3 settings  
145°C steam for sanitising surfaces and effective dirt & grease removal  
Almost unlimited runtime due to continuous fill feature

## Key features

**Integrated Vacuum**  
Provides an additional cleaning capability and surfaces can be left dry and dirt free.

**HEPA Filter**  
Eliminates pollen, pet hair, dust mites and tobacco smoke from everyday use.

**Multi-Functional**  
Can be used as a commercial grade Wet & Dry Vacuum and Steam Cleaner.

**Continuous High Performance**  
Can be used for an almost unlimited time due to the continuous fill feature, without having to depressurise the boiler.

## Consumables

# SX15

## Commercial Carpet Cleaner

The SX15 offers the capability to deep clean carpets and using the optional tool kit the ability to clean smaller areas, stairs and upholstery.

Whether its a large or small area, stairs or upholstery the SX15 is the machine to provide a deep clean. Utilising the power of the solution spray that is agitated deep into the carpet pile by the chevron bristled brush, the SX15 cleans carpets effectively.

The powerful vacuum then removes the solution and dirt from the carpet depositing it into the recovery tank for easy emptying.

The SX15 is easy to keep clean through the removable brush and filter inside the solution tank ensuring your SX15 is kept in optimal condition. The large rear wheels make the machine simple to move either up and down stairs or across uneven surfaces so that where necessary it can be moved easily between buildings. The fold over handle enables the machine to be stored in small cupboards.

The SX15 can be fitted with a hose and wand or upholstery tool for cleaning smaller areas, stairs and upholstery. This option maximises the flexibility of the SX15.

The SX15 has separate solution and recovery tanks to avoid the leaking of dirty recovered material into the clean solution associated with a membrane type tank system. The recovery tank can be easily removed for emptying.

The brush on the SX15 is easy to remove and replace to allow quick cleaning of both the brush and its housing to ensure great results and long machine life.

The SX-15 has a dump hose fitted to the back that allows complete emptying of the solution tank. The solution dump hose also doubles as a solution level indicator.

✓ **Simple, but built to last**  
Designed to sustain years of demanding use.

✓ **Easy to Use**  
Simple to use single switch and intuitive design.

Code	Description
V-SX15	SX15 Walk Behind Carpet Cleaner

### Key features

**Fold-Over Handle**  
The SX15 features a fold over handle, making it easy for under shelf storage or transportation.

**Deep Agitating Brush**  
The SX15's agitating brush provides deeper carpet cleaning by agitating deep into the carpet pile with the chevron bristled brush.

**Upholstery Tool**  
The SX15 offers the ability to deep spot clean carpets and upholstery with its additional wand.

**Individually Controlled**  
All of the SX15's functions are individually controlled to give operators total freedom to clean effectively in any situation.

# CLEANING INNOVATION

Bespoke products for modern cleaning challenges

We look at the same problems but think differently. We don't pretend to know the answers, but we do have over 75 years experience in how to find them.

The Victor approach to developing products is unique – we aim to bring fresh perspectives to problems and identify new solutions.

We start with ideas that come about through a systematic and professional process involving close observation, insightful listening and thorough analysis of how tasks are carried out and the objectives and outcomes required.

Though our involvement with the cleaning industry and talking to customers, we come across some problems which may not be solved with a mighty cleaning machine, but with a simpler approach.

### Our latest innovations include:

The **RiserShine** was created as an effective alternative to expensive, complex, powered escalator cleaning machines. The RiserShine helps ensure escalators are clean not only prolongs their life and reduces maintenance bills, but also projects a positive image for your facility.

Leaks in public spaces can create numerous health and safety risks for both visitors and staff. These risks not only include slips, trips and falls for the public, but also put businesses and organisations at risk of liability claims. We created **SlipStop®**, a high visibility, wide funnel leak collector to eliminate slips within public areas.

## Our R&D team want to fix your cleaning challenge

Have you got a specific cleaning challenge that you cannot find a viable solution for? Our in-house research & development department is on hand to help develop products that solve your problem for you.

Need some help? Call us today: +44 (0)121 706 5771

The RiserShine is a breakthrough in escalator cleaning tasks. This simple to use, ergonomic tool helps to clean and maintain escalator risers quickly, effectively and at a reduced cost compared to powered alternatives.

Ensuring escalators are clean not only prolongs their life and reduces maintenance bills, but also projects a positive image for your facility.

The RiserShine is easy to use for responsive cleaning tasks, such as spills - reducing slips and escalator downtime.

No electrical power is required to get spotless escalators, and only a single operative is needed.

Made with strong but lightweight aluminium and composite materials - significantly reducing user fatigue.

For best results we highly recommend Foaming Cleaner - Tanex Performa Concentrate

**RiserShine Starter Kit Includes:**

- ✓ 2 cassettes
- ✓ Aluminium head
- ✓ Composite Handle
- ✓ Quadstretch cloths (10pk)
- ✓ Foaming Concentrate Cleaner
- ✓ Safety Hanging Signs

Code	Description
41-537	RiserShine Starter Kit Blue (Otis)
41-522	RiserShine Starter Kit Black (Kone)
41-524	RiserShine Starter Kit Red (Schindler)
41-539	RiserShine Starter Kit Grey (Thyssenkrupp)

**Key Benefits**

**Reduce Cost**  
Much lower purchase cost than specialist machinery. QuadStretch Woven Cloth lasts over 1,000 washes reducing consumable cost. Much faster than using a machine or 'hand and scourer'. Only a single operative required which maximises productivity.

**Ease of Use**  
Simple to use - no need for extensive training. Does not require electrical power. Match pad profile to riser brand to ensure efficient clean. Easy to store and transport.

**Reduce Risk**  
Made with strong but lightweight aluminium and composite materials - minimises strain injury in use. Foaming cleaner is applied to cloth - keeps cleaning fluid away from escalator mechanism. Enables quick response to spills.

**Key features**

Colour coded tool heads to fit different escalator brand profiles

1. Easy to remove cloth allows user to quickly change if required
2. QuadStretch Woven Cloth, especially designed to conform with riser profiles for optimum cleaning performance
3. Pad snaps together easily to ensure perfect match for all types of riser profiles.
4. Stiff bristles to remove the toughest build up and reach the intricate tread corners.
5. Rubber strip prevents aluminium head from damaging the treads.
5. Reinforced handle does not bend or damage, and ensures pressure is transferred to riser surface.

**Consumables**

Code	Description	Code	Description
 41-535	Replacement Cassette - Black For Kone escalators.	 41-524	Replacement Cassette - Red For Schindler escalators.
 41-533	Replacement Cassette - Blue For Otis escalators.	 41-532	Replacement Cassette - Grey For Thyssenkrupp escalators
 41-555	Safety Sign - Printed closed for cleaning sign.	 41-511	Specialist cloth designed to stretch and conform to the escalator profile - 10 pack

# SlipStop®

**THE WORLD'S 1ST COMBINED LEAK COLLECTION UNIT & HAZARD SIGN**

## SLIPSTOP® LEAK COLLECTOR

Hazard sign and leak collection unit in one

Leaks in public spaces can create numerous health and safety risks for both visitors and staff. These risks not only include slips, trips and falls for the public, it also puts businesses and organisations at risk of liability claims.

The SlipStop® range is a wide funnel leak collector, designed to minimise slip hazards, by collecting water from leaks efficiently, whilst acting as a high visibility wet floor sign.

The leaking water is funnelled into the SlipStop® collection bucket, which contains the SlipStop® Absorb Liner, absorbing the water and removing the hazard.

SlipStop not only manages risks more effectively, but provides a much tidier and more professional appearance.

- ✓ Safely collects leaks to prevent slips
- ✓ High visibility design prevents trips

Available In

**SlipStop® 65**  
SlipStop 65 can be flat packed for convenient storage.

**SlipStop® Cone**  
The SlipStop Cone can also be stacked for efficient storage.

### Key features

**Super Absorbent Collect Liner**  
Each Liner contains an absorbent pad with capacity of 2.5l. When water reaches the liner, it becomes absorbed, removing the hazard.

**Easy store**  
Both SlipStop® designs are easy to store. 65 packs flat, but takes seconds to assemble. SlipStop® Cone is stackable - making both designs easy to store when not in use.

**Superior Collection**  
Wide funnel design efficiently collects leaks without water escaping.

**High Visibility**  
Contemporary design and high visibility helps improve visitor safety and maximises your professional image.

### The SlipStop Range

Code	Description	Code	Description
 46-038	Includes SlipStop cone, collect bucket and 20 liners.	 35-182	Supplied on roll of 20 liners, each with integral absorbent pad.
 46-023	Includes collapsible SlipStop 65, funnel, collect bucket and 20 liners.	 43-330	18l SlipStop® in durable Yellow, high impact plastic

LEAK COLLECTION RANGE

## JAN CART<sup>®</sup> by **Victor**

### Modular & Fully Bespoke

Either choose from our selection of most popular configurations, or speak to a member of our team to help create a completely bespoke solution.

### Recycled Materials

Over 90% of the plastic used in the Victor JanCart trolley range comes from recycled material.

### Robust Engineering

The aluminium structure combined with double layer panelling guarantees rigidity and stability.

### Lockable Access

Locks can be added to any opening component, ensuring the contents will be protected, even when unattended.

### Heavy Duty Wheels

With a choice of wheel types to suit any terrain, you can be sure your JanCart will be smooth and easy to manoeuvre on any type of floor.  
*Tested with weights up to 300 kg.*

### Transparent Holder

Fitted to the lids, transparent holders are ideal for cleaning protocols or tablets.

### Pedal Lid Opening

Foot pedals can be added to lids for speedy, hygienic, hands free access to waste and laundry bins.

### Colour Coding

Colour coding can be added to mop handles, draws and bins to ensure cleaning protocols are being met every step of the way.

## THE DIFFERENCE IS IN THE DETAILS

The Victor trolley range has been developed with the end user in mind. Our modular design ensures almost infinite combinations which allows a completely bespoke trolley that can manage any commercial cleaning environment.

# MODULAR JANITORIAL TROLLEYS

## JANCART 0.4

Code: OP0400EN

Our simple mop & bin design is the ideal solution for users who predominantly need to perform mopping and waste or laundry collection. The colour coded, double mop bucket ensure maximum hygiene.

**WEIGHT:** 20 kg  
**DIMENSIONS:** 920x710xh1030 mm

<b>Mopping Systems</b>			
	OPK0513NX	FixT handle holder in ABS with non-slip rubber roller for pushing handle - black	
	OPK05270	Metal support handle for Mop bucket, painted, Ø20mm	
	S0201503N	15l bucket - grey, red handle	
	S0201502N	15l bucket - grey, blue handle	
	S0100201NR	Press down wringer with press bar - without rubber inserts	
	S0100101NX	Press down wringer, POM wringing bars, version with rubber inserts	

# COMMERCIAL CLEANING GUIDES

Simple guides on how to get the most out of your Victor Cleaning Products.

## FLOOR PAD GUIDE

What floor pad is right for your floor?

### WHITE PADS - FOR POLISHING

Designed for polishing clean, dry floors, the Victor white polishing floor pad is perfect for producing a high gloss finish to floors.

Use dry or with a fine water mist to produce a high gloss finish.

The Victor white polishing pad is made from 100% recycled polyester fibres and water-based resins.

For use with all Victor electric rotary machines, orbital scrubbers and automatic scrubbers.

### RED PADS - FOR REGULAR CLEANING

Ideal for spray cleaning, the Victor red floor pad polishes and cleans at the same time.

Suitable for regular light cleaning and polishing, the red floor pad will remove light scuff marks and dirt while producing a high gloss shine.

The red Victor buffing pad is made of 100% recycled polyester fibres and water-based resins.

For use with all Victor electric rotary machines, orbital scrubbers and automatic scrubbers.

### BLUE PADS - FOR PERIODIC CLEANING

The Victor blue cleaning floor pad is perfect for scrubbing or cleaning delicate floors where you might be unsure about using the more abrasive qualities of a Green Scrubbing Pad.

The Victor blue cleaning floor pad can also be used to scrub soiled hard surface floors such as concrete when used with appropriate cleaning chemicals.

The Victor blue cleaning pad is made from polyester fibres in a semi open texture non woven fabrication. Abrasive particles are dispersed throughout and bonded to the non-woven construction with a durable adhesive.

### GREEN PADS - FOR SCRUBBING

Ideal for wet scrubbing tasks, the Victor green scrubbing floor pad is the perfect choice for deep cleaning or light stripping.

The green Victor scrubbing pad is made from polyester fibres along with synthetic adhesives that will not be notably affected by water or cleaners used in standard floor maintenance. The abrasives used in this product are synthetic.

### BLACK PADS - FOR STRIPPING

Designed for stripping floors, the Victor black stripping floor pad is perfect for heavy-duty wet stripping of emulsion polish. Use with water-based floor stripping solution to remove worn and soiled floor finishes or sealers.

The black stripping pad can also be used to clean heavily soiled hard surface floors, such as concrete, when used with proper cleaning solutions.

The black Victor stripping pad is made from polyester fibres along with synthetic adhesives that will not be notably affected by water or cleaners used in standard floor maintenance. The abrasives used in this product are synthetic. This product is designed specifically for customers who want a more dense non woven pad.

## FLOOR CARE GUIDE

How to care for popular floor types

### MARBLE

**Where it's used:** Shopping centres, airports, banks, hotels, apartments, restaurants.

**How to identify it:** Marble can be recognised by its high shine and reflective qualities when polished. However if there are speckles or crystal-like elements, it's more likely to be granite. Marble tends to be white, cream, black red or grey in colour.

**Cleaning Method:** Regular spray cleaning using a maintainer or neutral pH detergent. White polishing pad on high speed setting or Burnisher such as a Lynx.

### VINYL

**Where it's used:** Libraries, public buildings, schools, village halls, restaurants, offices, banks.

**How to identify it:** VCT Flooring / Vinyl Composition Floor Tiles have been a popular commercial floor covering since around 1980. Vinyl can be recognised by an embossed pattern on the surface - this embossed pattern tends to disappear once the tile is worn.

**Cleaning Method:** Regular spray cleaning using a maintainer or neutral pH detergent. Red pad on high speed setting or Burnisher such as a Lynx. If sealed, maintain shine with a white pad. Periodically scrub with an alkaline detergent on a standard speed machine such as a Contractor.

### RESIN

**Where it's used:** Schools, operating theatres, kitchens, garages, factories.

**How to identify it:** Resin flooring is a durable plastic surface made up of, at its most basic level, a synthetic resin and a separate hardener. Due to its creation, resin floors will have no seams or joins. Resin floors are usually a single colour; red, green, grey.

**Cleaning Method:** Regular spray cleaning using a maintainer or neutral pH detergent. Red pad on high speed or Burnisher. Periodically bonnet mop with a standard speed machine and neutral pH detergent.

### QUARRY TILES

**Where it's used:** Washrooms, toilets, kitchens, patios, entrance halls, factories.

**How to identify it:** Traditional quarry tiles are usually red or grey in colour and unglazed. However later, more modern options come in a variety of tints and finishes. Quarry tiles are usually 152mm x 152mm or 203mm x 203mm and 13 to 19 mm thick.

**Cleaning Method:** Regular spray cleaning using a maintainer or neutral pH detergent. Red pad on high speed or Burnisher. If sealed, maintain shine with a white pad. Periodically scrub with an alkaline detergent on a standard speed machine.

### WOOD

**Where it's used:** Village halls, schools, restaurants, libraries.

**How to identify it:** Wood can be identified by its unique markings, rather than repeating patterns usually found in laminate. Use your thumbnail to test the softness of the wood - if it leaves a mark, it's softwood. The deeper the mark, the softer the wood.

**Cleaning Method:** For soft wood, regular spray cleaning using a maintainer or neutral pH detergent. White polishing pad on high speed setting or Burnisher such as a Lynx. For hard wood a red pad would be more suitable.

### LIMESTONE

**Where it's used:** Restaurants, churches, banks, schools.

**How to identify it:** Limestone is a sedimentary rock formation which is predominantly calcium carbonate and cream in colour with a light matte sheen. Limestone tends to feel warmer than other tiles such as porcelain. Due to it being a fairly soft stone, it will build a smooth patina over time. Not usually used in high footfall areas due to its softness.

**Cleaning Method:** Regularly bonnet mop using a neutral detergent with a standard speed rotary machine. Avoid using strong Alkaline or Acidic cleaning products.

### LINOLEUM

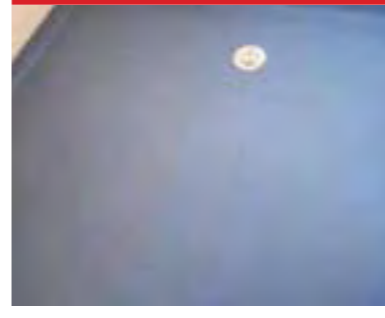

**Where it's used:** Schools, community halls, care homes, healthcare facilities.

**How to identify it:** Linoleum is made from natural materials, primarily linseed oil plus pine resin, ground cork dust, sawdust, and mineral fillers such as calcium carbonate, most commonly on a burlap or canvas backing. The design is not on a separate image layer, but is embedded throughout the materials, so the colour / design will remain even when heavily worn.

**Cleaning Method:** Regular spray cleaning using a maintainer or neutral pH detergent. For best results use a red cleaning pad on a high speed setting or Burnisher such as a Lynx. If sealed, maintain shine with a white polishing pad. Periodically scrub with an alkaline detergent on a standard speed machine.

### SAFETY FLOORING

**Where it's used:** Kitchens, swimming pools, wet rooms, bathrooms, changing rooms, store rooms and clinical areas.

**How to identify it:** Composed of vinyl, silicon carbide, quartz and aluminium oxides to give it a non-slip finish. Safety flooring is usually a single colour (Red, Blue, Green, Grey, Cream) with a glitter like fleck.

**How to care for it:** Regularly clean with a Hyperglide 350. The contra-rotating brushes are ideal for cleaning between the floor's non-slip properties. Periodically scrub using a standard speed rotary machine and an alkaline or citrus based cleaning solution.

### PAINTED CONCRETE

**Where it's used:** Garages, multi-storey car parks, factories, warehouses.

**How to identify it:** Painted concrete has a monolithic appearance. Unpainted concrete is usually a matte grey colour. Concrete floors are usually painted to make them look better, make them easier to clean or highlight different areas. Painted concrete floors are usually a glossy, single colour such as red, blue or grey.

**Cleaning Method:** Scrub using an alkaline or citrus based cleaner / degreaser with a scrubber drier or standard speed rotary machine.

### GRANWOOD

**Where it's used:** Sports halls, schools, offices, factories, laboratories, community centres and village halls.

**How to identify it:** A popular choice in sports halls, Granwood flooring consists of cement, sawdust, and linseed oil compressed into a block shape. This flooring has the appearance of wood but feels like smooth concrete.

**Cleaning Method:** Spray clean using a maintainer or neutral pH detergent. Red pad on high speed or Burnisher. If sealed, maintain shine with a white pad.

# CLEANING MADE SIMPLE.

All Victor products have been designed to outlast and outperform the industry standard, whilst remaining simple to use and maintain across a wide spectrum of industries.
