

SD12 SCRUBBER DRYER

Compact 12l Walk Behind

The SD12 Super compact scrubber dryer benefits from a slimline body and a fold over handle which make it incredibly easy to store and manoeuvre around tight spaces such as retail environments or washrooms.

The SD12 is the ideal compact scrubber dryer for cleaning surfaces from 250 - 500 m² and can clean up to 1600 m² on a single charge.

The front mounted brush head increases visibility in operation allowing the operator to see their working area, in addition to being able to get the brushes closer to corners and edges. The designated suction motor ensures floors are left clean and dry, and the HEPA filter stops unhygienic air being release.

The patented two toothed brushes has simplified the transmission to a single motor, thus increasing productivity and reducing costs.

The SD12 has been designed to be simple to maintain. Routine maintenance tasks such as squeegee replacement, cleaning the clean-water filter and replacing brushes is fast and easy. The wide opening of the recovery tank makes with easy to access and clean.

✓ High performance cleaning

High rotation double brush cleans better than single brush machines.

✓ Super Compact design

With the same tank capacity, Victor scrubber dryers are some of the shortest, narrowest and lightest options available.

✓ Simple, but built to last

Easy access to routine maintenance parts

✓ Easy to Use

Simple controls mean less training is required.

✓ Quick Charge & Long Runtime

✓ Maintenance packages available on request

Code	Description
V-SD12	12l Compact Walk Behind Scrubber Dryer

Key features

Front-mounted Double Brush

The SD12's patented 2 brush design is powered by a single motor which offers superior cleaning power.

Extra Quiet

The SD12 has been designed to be a quiet as possible and creates just 66.7 decibels of sound.

Super Slimline

At just 34kg the SD12 is very lightweight without compromising downforce. Although slimline, the SD12 still maintains a 400mm cleaning width

Easy Storage

The fold over, adjustable handle on the SD12 makes it incredibly easy to store in a cleaning cupboard, or fit in the boot of a car.
