

SD50-TRACTION SCRUBBER DRYER

Compact 50l Walk Behind

The SD50-TRACTION compact scrubber dryer features a slimline body, making it easy to store and manoeuvre in tight spaces like retail environments or washrooms. It includes traction as standard, with a 100-watt traction motor for enhanced manoeuvrability.

Ideal for cleaning surfaces from 1000 - 2000m², the SD50 can clean up to 8,400m² on a single charge (8,400m² on Eco Mode, 6,300m² on max). The front-mounted brush head increases visibility, allowing operators to see their working area and get brushes closer to corners and edges.

The patented toothed 4 brush design simplifies transmission to a single motor, boosting productivity and reducing costs.

Designed for easy maintenance, the SD50 allows for quick squeegee replacement, clean-water filter cleaning, and brush replacement. The wide opening of the recovery tank ensures easy access and cleaning.

✓ High performance cleaning

High rotation toothed brushes cleans better than single brush machines

✓ Compact design

With the same tank capacity, Victor scrubber dryers are some of the shortest, narrowest and lightest options available.

✓ Simple, but built to last

Easy access to routine maintenance parts

✓ Easy to Use

Simple controls mean less training is required

✓ Quick Charge & Long Runtime

✓ Maintenance packages available on request

1 YEAR WARRANTY INCLUDED

99.97% HEPA FILTRATION

EDGE-TO-EDGE CLEANING

MULTI BRUSH SINGLE MOTOR

TRACTION AS STANDARD

Code	Description
V-SD50-TRACTION	50L Walk Behind Scrubber Dryer

Key features

Front-mounted Double Brush

The SD50's patented toothed brush design is powered by a single motor, offering maximum visibility and superior cleaning power.

Traction as Standard

Features traction as standard, with a 100-watt traction motor for enhanced manoeuvrability.

Super Slimline

With the same capacity and track, the SD50 is one of the lightest (66kg) and most slimline 50L scrubber dryer available.

Quick Charge Batteries

With runtime of up to 2 hours and a recharge time of just 2 hours, the SD50 has the ability to be in action 12 hours per day
